

## PathWise to Speak at Upcoming PDA/FDA Joint Regulatory Conference

8/25/2010 – Salt Lake City, Utah – The *PDA/FDA Joint Regulatory Conference* offers a unique opportunity to join FDA representatives and industry experts in face-to-face dialogues. Each year, FDA speakers provide updates on the current state of efforts impacting the development of global regulatory strategies; while industry professionals from some of today's leading pharmaceutical companies present case studies on how they employ global strategies in their daily processes. Program participants hear directly from FDA experts and representatives of global regulatory authorities, and take home best practices for compliance.

As part of the program curriculum, PathWise will be presenting a how-to session on **Documenting and Conducting OOS Investigations**, teaching proven technical writing skills needed for today's fast paced organizations. The course provides the skills, tools and techniques that are necessary to effectively document and communicate investigations.
